

*TTC Van Phong Bay Resort sought to redefine aquatic luxury, making it a haven for discerning travellers*

# Beyond Pools: Crafting Aquatic Excellence at TTC Van Phong Bay Resort with Waterco

Nestled along the pristine shores of Doc Let, Nha Trang, Vietnam, the rebranded TTC Van Phong Bay Resort, previously known as TTC Resort Doc Let, stands as a testament to luxurious coastal living. This enchanting resort, with its azure pools and lush landscapes, sought to redefine aquatic luxury, making it a haven for discerning travellers. This case study explores how Waterco, in collaboration with their esteemed dealer, Kiti Pool, turned this vision into a reality.

## The Resort Oasis

TTC Van Phong Bay Resort boasts a diverse array of pools that add to its allure:

- **Main Pool:** A sprawling 560m<sup>2</sup> aquatic haven, ranging from 1.2m to 1.5m in depth.
- **Children Pool:** A playful 150m<sup>2</sup> retreat, designed with safety and enjoyment in mind.
- **Villa Pools:** Three individual pools, each measuring 4m x 9m and 1.2m deep, catering to the exclusive villas.
- **Landscape Lake:** A picturesque 300m<sup>2</sup> water feature that harmonises with the natural surroundings.

TTC Van Phong Bay Resort boasts a diverse array of pools that add to its allure

**Distinctive Waterco Products for a Unique Vision**

Waterco, renowned for its commitment to excellence, collaborated with Kiti Pool to curate a tailored solution for TTC Van Phong Bay Resort:

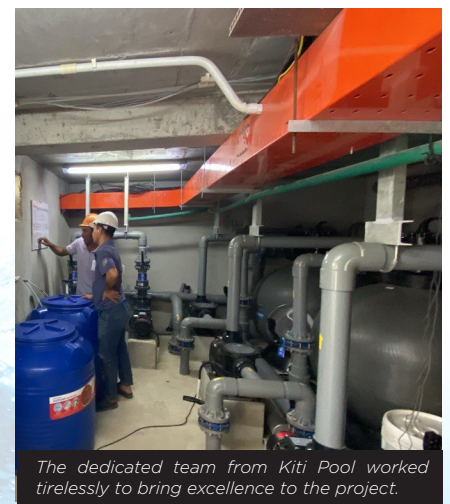

Location	Products Installed
Main Pool and Children Pool	<ul style="list-style-type: none"> <li>• Micron S1200 filter (4 nos)</li> <li>• 4.0hp Hydrostar 400 MKIV pump (4 nos)</li> <li>• Floor inlet (40 nos)</li> <li>• Main drain (4 nos)</li> </ul>
Pools for Villas	<ul style="list-style-type: none"> <li>• Micron S600 filter (3 nos)</li> <li>• 1.0hp Hydrostorm 100 pump (3 nos)</li> </ul>
Landscape Lake	<ul style="list-style-type: none"> <li>• Micron S600 filter (2 nos)</li> <li>• 1.0hp Hydrostorm 100 pump (2 nos)</li> </ul>

Complementing this, the Hydrostar 400 MKIV pumps, with their quieter operation and glass-reinforced thermoplastic construction, offered superior mechanical and chemical resistance. These pumps not only maintained optimal water flow rates but also contributed to the overall efficiency of the resort’s aquatic facilities.

In the villa pools, the Micron S600 Filter seamlessly mirrored the characteristics of the Micron S1200, ensuring tailored water treatment

for these exclusive retreats. Paired with the Hydrostorm 100 Pump, these filters maximized hydraulic output, minimized turbulence and reduced energy consumption, aligning perfectly with the resort’s commitment to sustainability.

For the landscape lake, Waterco’s Micron S600 Filter and Hydrostorm 100 Pump combination provided not only efficient water treatment but also enhanced the aesthetic appeal of this picturesque feature.

The dedicated team from Kiti Pool worked tirelessly to bring excellence to the project.

*The Main and Children's Pools beckon with refreshing indulgence and endless moments of relaxation.*

### Elevating Aquatic Luxury While Striking a Balance

The installation of Waterco's advanced water treatment solutions at TTC Van Phong Bay Resort has resulted in an unparalleled aquatic experience for guests. The pools, thoroughly maintained by the Waterco products, showcase crystal-clear waters, creating an inviting atmosphere for relaxation and recreation.

The collaborative efforts of Waterco and TTC Van Phong Bay Resort have not only addressed the common challenges faced by luxury resorts in maintaining pristine water conditions but have also set a new standard for aquatic elegance. The Micron S1200 and Micron S600 filters, along with the Hydrostar and Hydrostorm pumps, have struck a perfect balance between performance, efficiency and durability.

### Crafting Coastal Paradigms

The success story at TTC Van Phong Bay Resort goes beyond pools; it's a narrative of crafting coastal paradigms with Waterco's visionary solutions. The resort stands as a testament to how meticulous product selection and strategic collaboration can redefine aquatic luxury, creating an immersive experience for guests.
